What this record covers

This record compiles public U.S. FDA records about the supplier named above. It addresses one element of a foreign supplier evaluation under 21 CFR 1.505(a)(1)(iii)(B): whether the supplier is the subject of an FDA warning letter, import alert or other FDA compliance action. It does not evaluate the hazards of the food, the supplier's food safety practices or its other history, which 1.505 also requires.

Records carrying the supplier's FDA Establishment Identifier are linked exactly. Import alerts, warning letters and recalls carry no identifier and are linked only when the firm's name and address both agree; near matches are listed separately and not counted.

Supplier Brief is not affiliated with or endorsed by the U.S. Food and Drug Administration. This record is not a determination that a firm or product is safe or unsafe; the importer's qualified individual decides whether to approve the supplier.
